

Bryan Sklover

Professional Sports & Live Event Presentation & Production

Profile

After spending 20 years in the radio broadcasting industry, I cultivated many skills that translate to Pro Sports Game Presentation, as they relate to engaging an audience, enhancing their experience and ensuring their captivation, while fulfilling and optimizing partnerships. Between this, and my pure passion, love and respect for the sports community - I am ready for my next opportunity to create, manage and direct.

Career Experience

- 20 years of broadcast radio experience

- worked in a wide variety of radio formats, brands and stations
- held positions in every major day-part, and also specialized in Nationally Syndicated programming.

- high-level skills in audio production, including music soundtracking and podcasts.

- while at iHeartRadio, created and produced both weekly and seasonal podcasts.
- created the soundtrack for Kennedy Space Center Visitor Complex's "Holidays In Space".

- experience in video production, including livestreaming and social media video

- livestreamed every day through the 2020 NHL Stanley Cup bubble with a former hockey podcast brand "Hockey Now"
- produced video content for a popular wrestling podcast on its YouTube channel

- proponent of Youth Hockey and acted as Tournament Director for "Blue Line Hockey Tournaments"

- organize large youth hockey tournaments and give young athletes a special experience in hockey
